

## Clearing Disk Cache in Netscape

1. From the **Edit** menu, select **Preferences**.
2. To the left of **Advanced** (on the left side of the display) click on the **Plus (+)** sign.
3. Click on the word **Cache**.
4. Click the option **Clear Disk Cache**.

You can change the size of the cache by changing the number of kilobytes on the left side of the screen where it says **Disk Cache \_\_\_ Kbytes**.

## Clearing Disk Cache in Internet Explorer

1. From the **Tools** menu, select **Internet Options**.
2. Midway down the screen find **Temporary Internet Files**.
3. Click **Delete Files** to delete the temporary cache files.
4. Click **Clear History**.
5. Set **Days to keep pages in history** option to 0 (zero) or 1 (one).

To change the amount of space used for these files click settings and slide the bar to the left (to reduce) or right (to increase) the amount of space. Minimal storage amount is recommended. (1MB)

## America Online Version of Internet Explorer
