“Puppies are especially quick learners during the first 16 weeks of their lives. They learn the right and wrong ways to act with other dogs. They learn to accept new situations. And they learn to enjoy being with people. Socializing a puppy means introducing a puppy to new things to shape its behavior.”

Quote Source: Berman, Ruth: “Socialization and the First Stages of a Puppy's Life.” My Pet Dog (2001). Book Collection: Non-fiction.
