

Linking to the K-12 Databases

Campuses participating in the K-12 Databases program are asked to provide easy access to the state-funded resources for students, teachers, administrators and parents.

Linking from your campus library webpage

Links and sample text for your library webpage

Britannica Online School Edition: <http://school.eb.com>
Britannica Global Reference Center <http://global.eb.com>
Britannica Spanish Reference Center <http://spanish.eb.com>

EBSCO Online Resources: <http://search.ebscohost.com/login.aspx?authtype=uid>

Please contact campus librarian for login information (email address)

Please note: If a district/campus has a web page that is open to the world, then special consideration must be given to posting links to the K-12 Databases online resources. Campus logins cannot be displayed on the website. Links should be easy to find and contact information readily available.

Adding icons and search boxes to your campus library webpage

Downloading logos or images for your website
