

How do I customize my EBSCO K-12 select service screen?

The Select Service Screen is customizable in many ways, and is done so in your admin interface.

Your Select Service screen is made up of various "profiles." You can view your complete list of profiles by selecting the "Choose Profile" drop down menu in the middle of your "Customize Services" admin screen. If you would like to change the order or appearance of your profiles, click on the "Profile Maintenance" hyperlink.

To reorder your profiles, select the "Reorder Profiles" hyperlink. You may then assign the order by typing a number in the box located before each profile.

If you wish to remove any profiles from your Select Service Screen, simply select the "X" located in the far right "Delete" column in your profile maintenance screen.

Below you will find some common FAQs regarding Profiles and Select Service Screen customization:

In EBSCOadmin, how do I create a customized Select Services page?
